DETAILED ACTION

1. This Office Action is responsive to the correspondence dated 5/9/2005.
2. The reply is not fully responsive to the prior Office Action because of the following matter(s):

Newly submitted claims 23-28 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons:

Inventions I (deleted independent claims 12 and 21) and II (new independent claims 23 and 26) are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)).

In the instant case, for example, deleted claim 12 constitutes the combination which includes the steps of issuing point information, sending point information, receiving the point information, separately managing services then providing a predetermined service to a user. The combination (deleted claim 12), as claimed, does not require the particulars of the subcombination, (new claim 23), as claimed, because the encrypting means of new claim 23 is not required to perform the steps of the combination as discussed above, for example the last two steps of separately managing services then providing a predetermined service to a user.

The subcombination (new claim 23), with the encrypted/decrypting means, has separate utility, by itself, such as providing built-in measures for printed and electronic coupons to deter

fraud committed by a retailer and/or a consumer during the redemption and/or reimbursement of the coupons.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Claims 24-25 are restrictable as dependents of claim 23. Claims 26-28 are restrictable on the same basis.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 23-28 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

3. Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. **EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).**
